WORK EXPERIENCE

Junior FrontEnd Developer
NexGen LLC

09/2022 - 09/2023   *Varna, Bulgaria*

A software development company, redefining product quality and reliability.

Achievements/Tasks

- Design and deploy customized software solutions utilizing React, Redux, and TypeScript.
- Design and implement tailored solutions, including server-side scripts within the ServiceNow platform.
- Throughout my daily tasks, I was involved in the conception and implementation of new features, along with the refinement and optimization of existing functionalities.
- As part of my role at NexGen LLC, I consistently applied strong problem-solving skills and actively participated in collaborative team endeavors.
